with school after high school.

What is ETV?

- This program is designed for current and former foster youth who have aged out or who are likely to age out of the foster care system
- ETV offers financial assistance for you to attend colleges, universities, vocational or technical training programs
- ETV awards can help fund tuition, fees, books, housing, transportation and other school-related costs
- Funding is available up to \$5,000 to eligible students every year
- ETV awards are unique to each student and are based on the cost of attendance formula established by the school of choice, your financial aid award and your unmet need
- Your total financial aid cannot exceed the cost of attendance, so not every student will receive a full \$5,000
- ETV is designed to complement your efforts to secure financial means to attend post secondary school
- ETV is available anywhere in the United States
